

Benton County Firewood Program

Overview

Benton County Natural Areas, Parks and Events Department will issue permits to allow the general public to collect and cut firewood from designated locations within county park properties.

Historic logging and ongoing storm, insect, and other environmental factors can leave Douglas fir, Oregon white oak, and other tree hazards within many park locations across the county.

County Parks' will provide a fee program, to help address these current and future issues.

A \$15 daily permit will be issued, with requirements for location and collection methods provided by parks staff.

Permitting Process

Natural Areas & Parks staff will mark locations and/or consolidate areas where firewood cutting is allowed.

No felling of trees is allowed.

All wood available has been felled/piled by parks staff or contractors in designated access locations

Applicants complete a Special Use Permit- Firewood Collection

Applicant provides: License plate number and vehicle description, Phone contact (cell phone preferred- if available), Desired date(s) for firewood cutting/collection, Staff provide information to applicant on where and how to collect/cut on an approved day(s). Applicant pays a \$15 daily permit (see Special Use Permit), allowing them to cut/collect for one full day in designated area; Follow up by staff will occur to confirm proper collection; At the end of the fiscal year, review and updates of program will occur.
